

Leading company in engineering service

# Profile

Shivamtech is one of the fastest growing Engineering Solutions venture. It is an ISO 9001:2015 Certified and lead by an young entrepreneur Mr. Sunil Nandedkar.

Since its inception in 2001, Shivamtech. has been offering Solutions in CAD/ CAE. We offer comprehensive range of engineering services, which consistently meet the quality specifications of the customers.

Quality along with timely delivery of the solutions has been the hallmark of Shivamtech.

Shivamtech delivers wide ranging solutions across industry verticals: automotive, general Engineering, Heavy Engineering, Oil & Gas, Power Generation, aerospace & marine.

Shivamtech Provides range of services, from concept design, Product design 3D model generation, 2D detailing & drafting to product development and customized software solutions.

Shivamtech lays great emphasis on innovation and quality. It works in collaboration with its clients across the product development life cycle by constantly innovating its processes, upgrading team skill-sets and creating resources of well trained engineers to meet the scalability required for the growing demands of the industry.

Shivamtech team has Product Design & Development expertise that includes Design, Analysis, Multi-body Dynamics, Virtual Prototyping & Testing, Digital Manufacturing, Product Data Management and Technical Documentation.

We are committed, Passionate about our business and we want to bring the same to your solutions.

# Services & Verticals

## Verticals:

Automotive  
Off Highway  
Aerospace  
Defence  
Oil & Gas  
Industrial Machinery and Consumer  
General Engineering

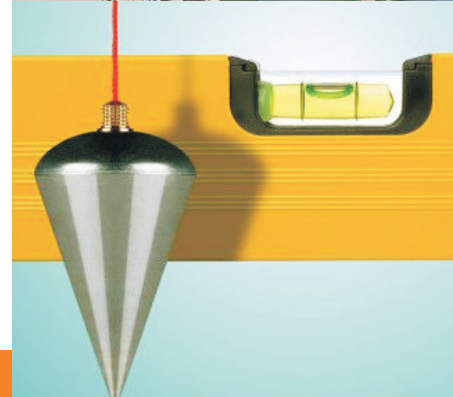

## Services:

Product Design  
3D model and Details  
Finite Element Analysis-FEA  
Finite Element Method-FEM  
Computational Fluid dynamics-CFD  
Fixture Design- BIW/Welding/Inspection  
Die Design  
Plant Design  
Design Automation  
CAD/FEA Customization  
Reverse Engineering

## Software's :

Catia V5  
CREO  
NX  
Inventor  
Solidworks  
Hypermesh  
Ansys  
Nastran
